

THE HISTORY

In the latter part of the 1990's, Anglo Far-East (i) brought a somewhat different product into the market place. The unique "**Inspirational Biblical Hero**" coinage range quickly gained worldwide acceptance.

On their release AFE claimed the coinage range would fill the growing demand for a non-government issued, bullion coinage. "*Our coinage range is in effect 'Free Market Money' as distinct to government issued bullion coinage; with government issued coinage, you are only ever the BEARER never the OWNER,*" stated Philip Judge, AFE's Managing Director.

In the days when very little else existed in the market, this revolutionary bullion coinage range was considered to be an excellent way to purchase and hold gold bullion in small, tradable denominations against social and economic crisis.

"The true test to qualify "Money of Last Resort" is; Is it non-legal tender? Is it in small denominations? Is it pure bullion? Is it internationally recognized? And can it be purchased privately?" asked Graham Daniels, one of AFE's original founders, on their release.

Abraham released 2001

In 1997 the company released its King Solomon coin and followed through with its Abraham release in 2000 and 2001. In both cases Australia's Perth Mint won the minting contract and delivered world leading workmanship.

Over the years, Anglo Far-East has become recognised as a world leading issuer of non-government issued bullion coinage; '**free market money**'.

(i) Anglo Far-East Bullion Company was former named Australia Fair.

INSPIRATIONAL BIBLICAL HERO COINAGE RELEASE

AFE is proud to announce its pure gold and silver bullion coinage release, featuring one of the Old Testament's great heroes.

"The life and example of Joseph is more important to us today than maybe at any other time in history", says Philip Judge, AFE's Managing Director, "Joseph's management of Egypt's assets during such a period of great and violent change is an inspiration, and is an important key to us today. The story is central to Anglo's outlook on today's world economics & markets, and our management approach to wealth and assets in these changing times."

The story of Joseph is one of history's most provocative and poignant stories. Egypt's Middle Kingdom had reached its highest level of material prosperity, successful in foreign trade and the exploitation of mines and quarries was greater than ever before. The region was enjoying unprecedented peace, refinement and prosperity; but change was in the wind.

Joseph's entire life and career was remarkable; it is said, *"the Lord was with Joseph and blessed what he did"*. Entering Egypt as a slave, Joseph's first Egyptian master, quickly promoted him from mere household servant to 'steward' or 'trustee', responsible over his entire household, agricultural estate and assets.

From his elevated status as trustee, Joseph again found himself shackled, imprisoned for a crime he didn't commit.

Pharaoh, the supreme ruler of Egypt and the then known world had two dreams. Dreams, considered to be messages from God, left the Pharaoh disturbed and further troubled by the fact that none could be found to interpret them. Joseph was brought before the Pharaoh and told him there would be seven great years of abundance coming and a further seven years of severe famine to follow.

Joseph went on to offer Pharaoh some wise council; *"Now therefore, let Pharaoh select a discerning and wise man, and set him over the land of Egypt. Let Pharaoh do this, and let him appoint officers over the land, to collect one-fifth of the produce of the land of Egypt in the seven plentiful years. And let them gather all the food of those good years that are coming, and store up grain under the authority of Pharaoh, and let them keep food in the cities. Then that food shall be as a reserve for the land for the seven years of famine which shall be in the land of Egypt, that the land may not perish during the famine."*

Pharaoh appointed Joseph as Prime Minister, under no-one but Pharaoh himself.

Egypt's seven years of abundance were followed by a cruel and severe famine that affected the entire known world as recalled in the Bible's book of Genesis; *"and when the famine was over all the earth, Joseph opened all the storehouses and sold to the Egyptians"*.

"Joseph was a man that understood cycles and seasons, the importance of reserves and savings, and furthermore, served and respected authority", observes Anglo's Simon Heapes.

The Release; features our artist's impression of Joseph serving as Egypt's Prime Minister during these famine years, standing in front of a stone silo, bringing grain before the people.

The coin carries the inscriptions, *"JOSEPH, circa 1900-1800 BC", "famine was over all the earth, and Joseph opened all the storehouses. Gen 41.56"*

Limited edition pre-release (no longer available); The coins flip side carries the company name; *"The Anglo Far-East Bullion Company"* and features the company logo which is rich in symbolism; the Rampant Lion signifying the Tribe of Judah, and the AFE Shield containing the representation of Australian Wattle, the Southern Cross, and the Passover. Further inscriptions include *"Anno Domini"* (in the year of our Lord), *Features the minting MINT*, and the weight and purity of the coin.

WEIGHTS AND MEASURES

Historians generally agree on the weight of the ancient Hebrew shekel at approximately 11.4 grams fine weight per shekel. AFE's coinage range was derived from this weighting system.

GOLD ¼ SHEKEL - (2.85 grams, 9999 pure gold); The ¼ shekel weight coin is the smallest in our gold coinage range, just under 1/10th of an ounce. They continue to be an excellent way to purchase and hold gold coinage in small tradeable denominations as protection against social and economic crisis.

A "Jubilee" is a pack of 50 coins containing a total of 4.58 troy ounces (142.5 grams) of pure gold.

GOLD 1 SHEKEL - (11.4 grams, 9999 pure gold); The 1 shekel weight coin is the larger in our gold coinage range, just over 1/3 of a troy oz. They provide a convenient and more cost effective way to purchase and hold bullion coinage in larger sizes.

A Jubilee pack is a pack of 50 coins containing a total of 18.325 troy oz (570 grams) of pure gold.

SILVER 1 SHEKEL - (11.4 grams, 999 pure silver)

(Note: The 1 shekel weight silver coin is currently unavailable for sale).

MINTING

AFE's range of Inspirational Biblical Hero coinage minted in Zurich by the world renowned Argor Heraus Mint and are world class proof quality, and sold mint fresh.

Orders

AFE has Signed an Exclusive Gold Coin Distribution Agreement With JWS Inc. and no longer distributes the coins, please refer to;

FREE MARKET MONEY AND ADVANTAGES OF AFE's COINAGE

THE ADVANTAGES OF SMALL DENOMINATIONS

Our gold coinage is available in 2.85 grams (just under 1/10th of an oz*) and 11.4 grams (just over 1/3rd of an oz*).

These sizes make these coins small and easily tradable. Many people hold gold and silver coinage on hand as a "crisis" or "financial catastrophe" insurance.

Historically, in the event of a financial catastrophe, the purchasing power of bullion coins has increased dramatically. By holding coins in small and tradable sizes, it makes them convenient and easy to exchange (trade) for essential goods and services in the "free market".

() Troy ounce; 31.1034 grams per ounce. The "troy" ounce is the internationally accepted ounce measurement for gold and silver.*

THE ADVANTAGES OF NON-LEGAL TENDER RESTRICTIONS

PRIVATELY & FREELY ISSUED AND TRADED ; Our bullion coins are privately and freely issued and traded. The vast majority of bullion coins in the market place today are government issued (legal tender) bullion coins.

The coinage and/or currency laws of most countries, allow the government that issue the coinage (including their own bullion coinage), to impose restrictions, change or manipulate rates of exchange, recall and potentially even remove from circulation (confiscate) their coinage from the bearer.

When you hold privately issued bullion coinage, you ARE the owner, not just the bearer. When you hold government issued bullion coinage, you are ONLY ever the bearer (temporary holder), NEVER the owner, the issuing government ALWAYS remain the owner.

THE ADVANTAGES OF INTERNATIONALLY ACCEPTED MINTING AND PURITY

Our bullion coinage is currently manufactured by the internationally recognised and accepted Perth Mint, whose name appears on each coin. Their name insures its purity.

AFE conduct periodical independent assays on its coins to independently verify their purity and integrity.

THE ADVANTAGES OF PRIVATE "NO HASSLE" PURCHASING

Purchasing bullion coinage through AFE can provide you with a substantially higher degree of privacy than if you purchase government issued bullion coins through local bullion and coin dealers.

In many jurisdictions, local bullion and coin dealers are required by law to hold records and report purchases to authorities, undermining and destroying the purchasers right to privacy. When purchasing through Anglo Far-East, your records stay with us. **YOUR PRIVACY IS PARAMOUNT.**

With our "no hassles" purchasing and delivery, upon placing your order, the coins are security-shipped to your door.

THE ADVANTAGES OF COST EFFECTIVE PRICING

In almost all cases, purchasing our privately issued bullion coinage is more cost effective than buying similar sized, government issued, mint fresh, bullion coinage.

FURTHER ADVANTAGES

Our privately issued bullion coinage have several other advantages;
Our bullion coinage is pure gold and silver and not an alloy like legal tender bullion coins.
Our bullion coinage is collectable, determined by a periodical change in the "Inspirational Biblical Hero".

Our bullion coinage is considered to come under the classifications of religious, rare and unusual providing strong arguments in most jurisdictions against future confiscation on religious grounds.
